

Job Title:

Field Support Technician

Number of Positions: 2

Organization: Airawat Research Foundation

Work Location: Lucknow / Kanpur

Nature of Appointment: Temporary / Short term (Consultancy/Professional Services Agreement)

Duration of Appointment: 6 Months, Extendable based on performance and project requirements.

Essential Qualification:

ITI (Electrical / Electronics / Mechanical or allied trades) with minimum 2 years of relevant field experience

Desirable Attributes:

- Willingness to undertake full-time field work
- Basic understanding of electrical, electronics, or mechanical on-site work
- Honest, disciplined, and dependable
- Ability to work as part of a field team

Key Responsibilities:

- Assist in field deployments, installations, and on-site activities
- Support basic electrical/electronics tasks such as wiring, cable handling, and fault assistance
- Support mechanical activities including drilling, cutting, and equipment handling
- Carry out on-ground tasks as assigned during field operations

Nature of Work:

This is a pure field-based role involving regular site visits and hands-on technical support across project locations.
